Adolescent Clinics

Eau Claire, WI – October 20, 2015 – The Eau Claire City-County Health Department is providing free adolescent vaccinations – including flu – at seven middle schools in Eau Claire County: Northstar, DeLong, South, Regis, Altoona, Fall Creek, and Augusta. Students will be able to get a flu shot and any of the adolescent immunizations – Tdap, Meningococcal, or HPV – at no cost. Adults can receive flu shots for \$40. Students from any school in Eau Claire County and their families are welcome to attend any one of the clinics.

“By partnering with the school districts, we are able to offer an opportunity for adolescents to be up-to-date on their immunizations in a convenient and accessible environment for them and their families,” explains Patricia Reis, public health nurse. The clinics are offered during part of the school day as well as after school hours if parents prefer to be there with their children or want immunizations themselves. One of the school superintendents, Mary Ann Hardebeck of the Eau Claire Area School District, states “We are pleased to be in partnership with the Health Department on efforts like this. Tending to the well-being of students and keeping them safe and healthy is critical.”
